

The All-In-One PLC, HMI & Remote Access Device

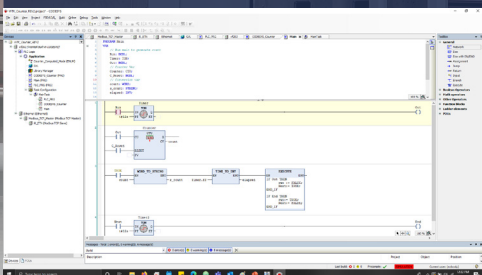

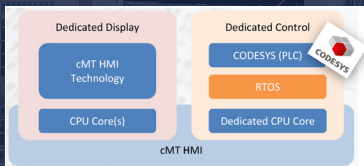

Use it as an HMI, use it as a PLC (with CODESYS), use it as a Remote Access/Remote Maintenance Device, or use it as all 3

Display Sizes from 7" to 15.6"
Connect it to an SQL Database, OPC UA or to the cloud using MQTT
MQTT support for AWS IoT, Microsoft Azure, IBM Cloud and others
Quad Core Processor assures high speed operation and if used as a PLC, one core is dedicated to CODESYS

Replace your HMI starting at less than \$450 or replace your HMI, PLC & Remote Access devices starting at less than \$650!

PLC

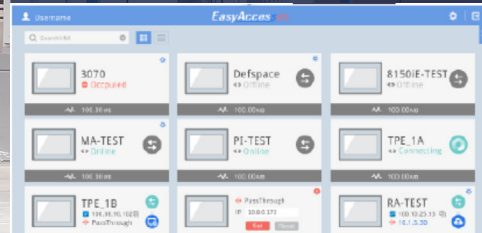

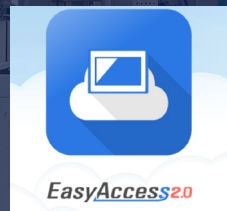

- Industry standard CODESYS software provides free, easy to use IEC61131-3 Programming
- Ladder Logic, Function Block Diagram, Structured Text and more are standard
- Supports remote I/O with Modbus TCP, Ethernet/IP, EtherCAT or CANopen

HMI

- Free development software
- Over 300 drivers including drivers for the major PLC manufacturers
- Built-in Media Player, File Browser & PDF Reader
- Powerful Java Script and Macro Command languages for expanding HMI functionality
- Resistive or Capacitive (multi-touch) Options Available
- Remote Viewing & VNC Monitoring
- Includes an extensive library of graphic images

Remote Access

- Secure VPN Access (256bit AES and 2048bit RSA)
- Supports Ethernet-to-Ethernet & Ethernet-to-Serial Pass-through without breaking the HMI to PLC Connection
- Unlimited Users & Unlimited HMIs in the domain
- Includes 1GB Data per Month (additional data available)
