u-remote

More performance and reduces complexity

Weidmüller's u-remote is the industry's leading compact decentralized I/O system. Utilizing intuitive features, the u-remote greatly reduces the time in engineering, installation, and commissioning - expediting your products to market.

While supporting all common fieldbuses, the u-remote is perfect for any application. Equipped with an internal web server, u-remote allows for easy configuration as well as simple diagnostics, enabling extremely fast commissioning and support.

Our formula: "More Performance. Simplified. u-remote."

Interfaces to Virtually any PLC
with 80+ I/O modules available
